Additional Insurance Requirements for All Projects:

Installer agrees that the Commercial General Liability insurance set forth above shall be primary and non-contributing with respect to any insurance carried by Customer or Installer's subcontractor and that Installer's insurance policy shall not (i) exclude subcontractors from coverage or (ii) have any restrictions on coverage resulting from subcontractors failing to maintain certain levels of insurance. In addition, if the Project is a residential property, the General Liability and Umbrella policies must include coverage for "residential work".

The Commercial General Liability insurance shall name Customer, MMWEC and Municipal Utility as additional insureds with coverage at least as broad as the coverage provided to the named insured.

Certificates of insurance reasonably acceptable to the Customer (or upon Customer's request, a copy of the policies for verification) that include insurance coverages required and specified above shall be delivered to Customer and Municipal Utility promptly after execution of this Agreement. Each policy shall contain all generally applicable conditions, definitions, exclusions and endorsements related to the PV Project. These certificates and the insurance policies shall contain a provision that coverages afforded under the policies will not be

canceled, modified or allowed to expire until at least thirty (30) days' prior written notice has been given to the Customer and Municipal Utility. Customer and Municipal Utility shall accept a 10 day notice for cancellation for non-payment of premium as required by insurance company. In the event that any insurance policy providing coverages required by this Agreement will expire during the term of this Agreement, Installer shall, not less than fifteen (15) days prior to the policy's expiration date, deliver to the Customer and Municipal Utility certificates of insurance evidencing renewal of such policies. If any of the foregoing insurance coverages are required to remain in force after final payment, an additional certificate evidencing continuation of such coverage shall be submitted with the invoice for final payment.

Installer hereby agrees and acknowledges that (i) Installer shall give prompt written notice to Customer and Municipal Utility upon becoming aware of any and all losses, damages, or injuries to any person, which may in any way be related to the PV Project or which might reasonably give rise to a claim against Installer, Customer, Municipal Utility or MMWEC; (ii) Installer shall promptly report to Customer any claims asserted against the Installer, whether related to matters insured or uninsured; (iii) Installer shall not settle or provide payment for any claim or loss, injury or damage or other matter as to which Customer, Municipal Utility or MMWEC may be charged with an obligation to make any payment or reimbursement without the prior written approval of Customer, Municipal Utility or MMWEC as applicable; (iv) the carrying of any of the insurance required hereunder shall not be interpreted as relieving Installer of any responsibility to Customer; and (v) Installer shall assist and cooperate with any insurance company in the adjustment or litigation of all claims arising under this Agreement.

Installer hereby agrees and acknowledges that the failure to provide and continue in force any insurance required in accordance with the terms of this Agreement shall constitute a material breach of this Agreement.
